**Trauma in 2nd grade-**

**A teacher called me up to read what I wrote in class (everyone was being called up) and I broke down crying traumatized that I couldn't get up. This followed me up through high school when I was playing in a professional teacher's symphony. I had the support of so many teachers...but I had a very nervous issue when I had to perform solo or be in front of people. This followed me through college and I was terrorized when I had to perform.**

**Additional info:**

**mother controlling, critical and not affectionate**

**father had stutter passed down to sister**

Possible generational data transfer-- father has stuttering issue-- thru eye gait, the anxiety over speaking could be transferred to the daughter-- enhancing the problem

Minister to the spirit-- tell it that it is carrying data-- anxiety and fear that doesn't belong to you-- that you can speak clearly and be understood, without anxiety, bless your spirit to let go what doesn't belong to you--- ask Jesus to come and replace the anxiety with peace.

Reports:I have basically overcome but I still do not like to position myself in front of people...but will do so if I know it is God.

Comments: This is the soul choosing to overcome-- but not directly addressing the root issue- we want the total freedom

Possible loss of essence-manifests as an inability to function/ contribute???i.e. exhorter portion incapable of bringing spiritual strength to table to contribute w/in fellowship of the spirit

sometimes a portion of the spirit can carry generational defilement and cannot bring forth what designed to b/c it is held back by other portions of the spirit.

Reports: sometimes I go blank when I am put on the spot...like writing out a dream

Comments: this could be a manifestation of the spirit not able to come forward and bring what it knows

This leads us right into generational curses etc

Reports: no known Masons--- have done the masonic renunciations

Heritage: catholic, both sides polish-- 2nd generation american

possible general covenant or curse--- seems to be a root issue from the past-- the response far outweighs the situation. Masonic curses to 10 generations- can also be reimpowered

one of the punishments for leaving the masons, is cutting out the tongue. Which may have manifested in father and sister.

**Polish national strongholds--- control, hardness of heart, lack of blessing,**

**Masonic renunciations-- may need to do every 3 months--- they were masters at manipulating time, so make take a few times to fully appropriate the blood of Jesus-  
Not wanting to be present in the moment-- sinning against time-- allows the enemy to manipulate the time before you did the renunciations---**

**need to repent for not staying present in the pain, call or invite your spirit forward- choose to stay present in pain, Bless spirit to stay forward**

**Reports: mother wanting things done her way- controlling, had to break away from expectations  
negative coments about going to college (to get teaching degree in music), not supportive  
Comments: seems lik a parenting trauma that has generational roots**

**Possible attack on gift or design--**

**Reports not comfortable in own skin**

**Comments- no support of gift-- but bigger issue, attack against design**

**many times the enemy will allow you to excell in developing other aspects of your design while crippling you in your primary redemptive gift--**

**Word of Knowledge--possible druidic issue--- wizardry witchcraft in the past-- stealing or borrowing of the life force of others- chi**

**if done in the past-- can open up where feel completely drained- strenght is lost**

**Ask God what generation-- repent and do druidic renunciations**
